- 🔗 atmollo-harness

Highly driven and dedicated software engineer with proven leadership skills looking to apply skills to build the next big thing.

Experience

Harness	**November 2021 - Present**
Senior Software Engineer II	Boston

Building highly configurable cloud based software scanning into a leading Software Development Platform.

Since becoming generally available STO has performed over 10 million scans with integrations ranging across 40+ scan tools (Snyk, Semgrep, Trivy, Burp, Zap, etc...)

Contributing at every phase of the software delivery lifecycle including: planning, frontend, backend, database, devops, testing and monitoring.

Working with multiple different cloud providers and runtime infrastructures to deliver results across various customer use cases.

Leads agile development as Scrum Master (4+ years), including standup, scoping, sizing and sprint kickoff. Coordinates with product and engineering teams to plan out larger initiatives to support internal and external product users.

Senior Software Engineer II May 2024 - Present

Senior Software Engineer I August 2022 - May 2024

Software Engineer II November 2021 - August 2022

ZeroNorth (Acquired By Harness)	**February 2021 - November 2021**
Software Engineer	Boston

Developed real time application security solution by integrating 20+ security tools while implementing customers needs; enhanced and automated workflows while hardening application security and improving security data usage.

Optum	**May 2017 - February 2021**
Software Engineer	Boston

Built, deployed and scaled multiple enterprise applications to public and private cloud platforms; integrated security scanning into internal and external applications; automated time intensive manual processes saving hundreds of hours of work across business units.

Software Engineer June 2019 - February 2021

Technology Development Associate June 2018 - June 2019

Technology Development Intern May 2017 - August 2017

Boston University Residence Life	**October 2014 - May 2018**
Office Assistant	Boston

Merchandise Associate	**May 2014 - August 2015**
Pawtucket Red Sox	Pawtucket, RI

Education

Boston University	**September 2014 - May 2018**
Applied Mathematics & Computer Science	Bachelors Degree
3.55	

Dean's List: 2014 - 2018, Graduated with honors (CUM LAUDE)
